Chorus

Fill our hearts with love,
Give us faith for victory,

Oh, so strong within my breast, Longings, for the smile of Jesus,

Longings to be set at reat?
When I see my sin and sorrow
Tears of bitter anguish fall;
For I know I once loved Jesus More than all: yes, more than all.

Where are now those chains that

bound me—
Chains of sin and self and pride?
Hallelujah! Jesus broke them
When I sought His riven side; Now a sweeter, nobler bondage

Doth my raptured soul enthral,

For there's pleasure in His service, More than all: ves. more than all.

WHO WILL COME? Tune.—I've washed my robes, B.J.,
No. 335.
My robes were once all stained with

sin,
I knew not how to make them clean, "Go wash, I'll make them white as snow."

Chorus
I've washed my robes in Jesus' Blood
And He has made them white as Silow.

That promise, "Whosoever wift,"
Included me—includes me still.
I came, and ever since I know
His Blood it cleanses white as snow.

Oh, who will come and wash to-day, Till all their sins are washed away; Until, by faith, they see and know Their robes are washed as white as snow?

EVER AT MY SIDE

EVER AT MY SIDE
Though I had wandered
In sin's path so broad and deep,
Though time I squandered
Seeking joy complete;
Yet the Saviour heard me
When I in repentance prayed,
And the past forgave me;
He my soul did save.

Now. Jesus, dear Jesus, He is ever at my side; Watching and waiting, All my steps to guide,

Sometimes in the darkness I my path can searcely see, Yet through the blackness Yet through the blackness
He doth comfort me;
Day by day He keeps me
In the hollow of His hand;
And I know He'll lead me
To the better land,

But I know only too well how possible it is for the finest and most possible it is for the finest and most painstaking religious work to stop short of Salvation—to stop short of saving the children. Indeed, no clucation, no worldly preferment, no grace or charm of human beauty, no wealth, no nower, can be of any true worth until their young feet have turned to follow the footsteps of the Son of God who loved them and pave Himself for them.

Do not, I pray, make the mistake ni fearing to present the Narrow Way to them as parrow, or to describe it as a difficult path scribe it as a difficult path. The heart of every beind, of every young man, and young woman, is the heart of a hero or heroine. Their ambitions will rise to difficulties. The Greatest Danger

I ich during the years spent in training, for God and The Salvation Army, the seven dear children He has given to us, that what I most needed to fear for them (far more than persecution or difficulty), was the case with which it is possible to make a procession of religion, and to take upon them the name of lesus, without being called to suffer anything for so doing. Our re-sponsibility for the children is not to remove the difficulties from he-fore their feet, but to teach them where to look for belp to overcome. In this you cannot begin too

Your President very beautifully early that "The Sunday colool was the school of the Spirit"; and, Oh, how wonderfully the Holy Spirit On now wonsertally the Hoty Spirit of God — which He gives to us more willingly than we give our little ones bread—how wonderfully He teaches the children! And so would say, let them be free; and, above all, let them—as soon as they words; let them bring their own words; let them bring their own words; let them bring their own difficulties to God. It is difficult, perhans impossible for some gre neople to understand the difficulties

Give Them a Whole Bible

And, out of my experience through that thirty years of work, and espe-eially from my own experience in the Sunday school of the home, I would say, give them a whole Bible, While our children were young it was the Old Testament that had such an intense interest for them. When I meet those few of the kings of Judah and Israel who won through, I shall thank them for the blessing they brought to the child-ren, and praise God for the wonren, and praise God for the won-derful way He saved up for us that Old Testament history. Yes, give the children a whole Bible. I heard the other day of one of

the devoted young people who have given themselves for our Salvation Army Work, that in speaking of the experiences of her conversion, she said, "I was very fond of reading, and we had few books; before I was eleven I think I read the Bible through four times, except the clos-ing chapters of the Gospels, and I could never read those because knew that Jesus died for me, and I felt that unless I bad answered to that sacrifice, I did not dare to read the story." Who would have suthe story." Who we spected such feeling?

How wonderfully God guides our children! I think one of the great-est things we have to fear is that where the Story is very often reand becomes like a worn-out song. I would beseech of you, as you re-peat that Story, and as the children go over the pages, ever keep in mind a distinct aim and purpose to nind a distinct aim and purpose to lead theu to the response, to that offering which they can best make while they are young and their hearts are tender. Oh, believe in the conversion of the tiny children! As soon as a child is old enough to sin soon as a child is old chongh to sin, to disobey conscience, the child is old enough to go to the Saviour of sinners. May God help you and inspire you by His Holy Spirit for

A STORY FROM ONE OF THE ARMY'S CRIMINAL SETTLE-MENTS IN INDIA

nov upon which the resumbent form apparently of a dead person was-laid, covered with a new white cloth. These bearers were followed by a small knot of women, then a further crowd of settlers. Unaware of the death of anyone within, the Officer's wife held up the women, who were seemingly in great distress, and questioned who the dead person was. Little could be understood from the reply, and one by one they rejoined the mournful procession as it passed the gates of the Settle-

The whole thing being so inexplicable, a position was taken up from which a watch could be kept. The crowd passed on chanting a funeral dirge, to a spot about half a mile distant when the charpoy with its burden was put on the ground.

The procession now began a ow march round, the weird chanting ever increasing in volume as the pace grew quicker, until at last it-developed into what appeared a trot. Only the more robust could continue, so the stragglers, as they dropped out, sat where they fell and continued their shouting as long as the ceremony lasted.

After perhaps fifteen minutes, the one who now assumed the lead, with

The mourners now returned to their homes still sorrowing, while-later in the evening those who fled into the jungle also returned, probably after performing some pujas for the dead one. At all events that evening all went to rest feeling thet

During the subsequent inquiries. it was discovered that the figure lying covered upon the cot, and for ing covered upon the cot, and Jor-whom all the ecremosites had been observed, was that of a dummy made up to represent one who had just died in prison. There the proper formalities could not be observed, so this opportunity had been scizedand justice done to the dead

On the eve of farewelling for the Training College he proposed holding family prayer for the first time in his home. That was a memorable occasion, and largely as a result of that victory and his continued prayers on their behalf, six of the family were subsequently converted. His father died a short time ago professing faith in Jesus. One sister went among the Indians as a Missionary and is now preparing to go to Africa, while a brother is about to enter the ministry. Thus God has honored the Captain's faith and consecration, and he sets his face consecration, and he sets his face towards India with high hopes of further and greater victories in that dark land

to me, "Go and ask ner it she knows her sins are all forgiven."

But on I went, trying to quench the Spirit. I began to say, "Oh, it the Spirit. I began to say, "Oil, it will look so silly for me to go right, up to the woman and ask her that." She was carrying a large basket and the still small voice said, "Go and the still small voice said, "Go and ask her to let you earry it for her, and when you are going along the road you will have a one chance to speak to her on spiritual matters."

speak to her on spiritual matters."
She was a person I would hardly ever think of speaking to at any time. So on I went, right against my will. Something seemed to keep the bicycle going, I believe it was the devil. If my memory serves me right, I think this took place on a Thursday or Friday, and it kept bothering me so much that on the following Sunday I made up my following Sunday I made up my mind that I would go and speak to her at all costs. So I got on my biagele and went to her place, in a good snowstorm, a distance of about a mile and a half. This will give the reader a faint idea of how

troubled I was.
When I arrivel at the house, to

I kept saving to myself: "Perhaps I will never get an opportunity to speak to her again, and her blood will be on my skirts. I did not know what to do. I did not feel like testifying. I felt that the Lord would not foreive me if she went to hell. because I did not warn her. I went on trying to forget this and praying to God to forgive me,

On the following Wednesday I, On the following Wednesday I, with several other comrades, was on my way to a small place to sell Christmas "War Crys," and hold some open-air meetings. We had hardly got seated in the train when nardly got seated in the train when one of our party told me that this person I felt I should have spoken to was dead. The blow staggered me. I did not say anything to any person about this happening, but went on trying to forget. And I can say that I did almost forget that day, and we had some fine meetings. I heard so many stories after I got home that I was almost confounded. I heard that this woman had been frozen to death. I heard that she died in Toronto; but no one seemed

That night I went to the police station, but could get no satisfaction there. I went to the undertakers, because I had heard she was there. Here I was unsuccessful in obtaining any satisfactory information.

It was a long time after that be-fore I knew for sure about this old woman, and during that time my soul was very much troubled.

At last one night, as I and a comrade were going home from the meeting, I saw the old woman going along the street. I left my friend, and said, "I am going to speak to that woman." So I started to run after her. When I got near she turned around and said some things that were not very nice. She thought that. I was some one after her for

OME forty-five years ago the Jones family of Bristol, Eng. were made glad by the fact that another Jones, to be named Bill, arrived at their home. The parents had a great desire that this boy should be a credit to the family. But their hopes were doomed to early disappointment. At the age of eleven he was started off as an errand boy to see if the change would help him; but this situation only lent itself to bring out the bad that Jones had in. Here out the bad that Jones had in. Here we find the blasphemous tongue mastered him, and the first drop of liquor entered into his system to fire his being full of frenzy and foolfire his being full of frenzy and fool-ishness. His ill-fame soon spread-he became known as "Jones, the down-and-out." The next step of interest was the taking of his bride to the altar when only nineteen. Many vows were made to seal this event, but, alas! the past had got too great a hold upon his nature. The home comprised one room, and soon step the mariage, through

The home comprised one room, and soon after the marriage, through one day's drunkenness, the whole supply of wedding gifts were sent flying. The throwing of a burning lamp was the next insult that this young wife had to contend with. This caused much pain, and the sears can be noticed to-day. Reading ness to forgive did not in any way bring the brutal spirit into subjec-tion, nor even to decent living with

Now Jones was, according to his own idea, just the man to choose as candidate for election. Hence at one election time he sought in the public house and elsewhere to demonstrate house and elsewhere to demonstrate his ability along this line. The day arrived—Jones was filled with ex-pectation. Night only found him defeaten, and naturally when money was all gone, manhood lost, and devilishness foremost, his wife sufferen, also children.

On arriving home they-mother and two shildren-were dragged out of bed, and in their anxiousness to escape his kicks, rushed to the window, and were barely stopped from jumping in to the small alley below by a sturdy policeman, who arrived on the spot and rendered his strong yet kind assistance. Jones now found

himself for twenty days in prison. The lonely hours, instead of bringing back his reason, only seemed to beget anger and maliee. He swore vengeance on those who put him vengeance on those who put him there. His nature was heated like a furnace, and as a beast rushes to the cooling springs of water, so his mind throbbed for the liquor that would fill, to his thinking, his life

One day, when they were seated on the floor waiting for something or some one to bring food or help, this friend came along and suggested, after a long talk to Jones, that he take his family to Canada and start a new life in a new country. At once the money question came. At once the money question came along; this was settled, and after years of eircling around old Bristol, "Jones, the No-Good," started two

Jones found that, with the addition of spirits to keer, it drove him further down than ever, and soon his home, which had become very comfortable, was again empty. He was arrested, but again his wife intervened, and paid the fine. Time drifted on, and fatally the great erash of his life came. The police remained in possession from 9 p.m tuttil 2 o'clock in the morning, during which time they telephoned to the police station the various particulars obtained. The correctness of the statement was verified by police visits in the various districts before the cougregation was allowed to depart.

Salvation-Army-like, the Soldiers spent the time in sluging, much to the surprise of the police officers, who had never before land to deal with so happy a crowd of "prison-ers." Four Salvation Army lasses carried his hody to the grave, and ultimately the wife, with her children, was sent to their relatives in Siberia, where they are now comfortably settled.

Meanwhile, the baronness became convergent with the fact of the Offieers' work, and herself visited and assisted the poor jamily. She saw what her soul lonzed for, became convinced of the reality of the religion of Jesus, and at the close of my Meeting, with tearful eyes, she said "I too want the mercy of God"

LIFE-SAVING SCOUTS

The photographs on our front page and elsewhere in this issue, are good evidence that the Life-Saving Scout Movement is taking on well in Canada At the Clarkeon's Pally 165 lads were inspected by the Chief Secretary, who commented very faorably on their appearance and discipline. We learn from the Territorial Organizer that there are now 32 Troops of Scouts, with a membership of 430, and more joining every week. There can be no doubt that this movement is just the thing for the younger generation-both boys and girls-for Troops of Girl Guides are about to be formed also. An Editor of a Western paper, the "Estevan Progress," made some comments in his columns one day about the need of a Scout organiza. tion in the town, as so much good material was going to waste. The boys of the town, apparently, expended their energies in sham battles with each other. A few weeks later he wrote: "Even while I was yet speaking, it appears that a movement was on foot to create such an

organization in Estevan, The Sal-

vation Army has taken the matter

up, and an introductory parade will

be held at the barracks on Friday

evening, and any boy between the

ages of eleven and eighteen years is

eligible to join. This is an excel-

lent movement and should attract a

large number of boys from all parts

of the town. Their yearning for

something of a military nature will

be satisfied, though the work of The

Salvation Army is such that the impulse to bloody war is kept down, and their forces are exerted in the interests of peace." The value of the Scout movement the value of the Scout movement lies right there. It organizes the boys and teaches them something useful, instead of letting them waste their time in mere play. Physical drill, first aid, and many other pracoffin, first aid, and many other prac-tical things, will make the boy man-ly, self-reliant and useful, and will interest him just as much as mere loose, undisciplined play.

Many wero fearful that the heat would make the grounds small but even in this the crowds small, but even in this respect there was not much room to complain. The Bandsmen and Sol-diers worked hard all day, turning out in good numbers for the Open-airs and Indoor services; in fact, they impressed the Commissioner very favorably indeed.

The Holiness Meeting was a time

of much blessing, and at the close five precious souls were seeking power and blessing. Staff-Captain Tudge read the Scriptures, while Mrs. Sowton and the Commissioner also talked to us from their hearts. The Commissioner's solo, "One With My Lord," helped considerably with the meeting.

Public Welcome Meeting.

Sunday afternoon was given over sunday aiternoon was given over to a public welcome. Among the speakers to represent the city (in receiving Commissioner and Mrs. Sowton were Alderman Trotter, who acted as chairman; Alderman Bullock and Algerman Patmore Ex-Mayor Clement also spoke.

The chairman, Alderman Beecham

Mr. Trotter is chairman of the Police. License and Relief Committee, and is a member also of other im-portant committees, and he is also a prominent member of the First Methodist Church. He told of the sacrifices made by The Army Officers who had come to the city twenty-five years ago. They had no building in which to hold their services, and had often knelt in the snow when the thermometer regis-tered forty below. Now they had a handsome building in the heart of

Mr. Trotter quoted statistics to show the work of The Army and remarked that as a member of the Relief Committee he had always found that The Salvation Army had been ready to do all they could to help people who were down and our. The Commissioner and Mrs. Sow-

being earried on successfully in Norway, Denmark, Sweden, Ice-land, United States, and India, and now he had been sent to Canada and had come with his whole heart to do his part here. "We have reto do his part here. "We have re-ceived a welcome that for heartiness could not be surpassed, and our problem now is to find a way to re-pay our finends for their kindness and we have come here to do all and we have come here to do all that we can for the alleviation of sorrow and suffering."

Alderman Bullock said that those

who did not travel had no idea of who did not travel had no idea of the work done by The Army, espe-eially among people not reached by any of the e hurches, and for actual work The Army came first. In many in sommetion with the Salvation Army to great advantage.

Alderman Patmore remarked that there never had been a time that there never had been a uni-when there was greater opportunity for the work The Salvation Army was doing than the present. The great war was causing a change over the country and greater interest was being taken in all religious affairs. Ex-Mayor Clement, who was the

last speaker, said that he had at-tended the first meeting held in the city of Brandon, and many Army Officers had been his personal friends, and he could heartily endorse the work they were doing. He moved a hearty vote of thanks to Alderman Trotter for his services as chairman

Sunday night was a grand finish trim, although the day was a heavy one. The heat was very trying, but the great erowd which filled the hall gave splendid attention. At the gave splendid attention. At the close of a well-fought-out prayer meeting, we registered over thirteen souls kneeling at the Mercy Seat. Brandon did well and was greatly pleased over the visit of their new Commissioner.

Visit to Sewell Camp.

On the Saturday, on the way to Brandon, the Commissioner and Mrs. Sowton, accompanied by Staff-Captain Peacock, visited Sewell Camp. They were met by Captain Marsland, the resident Salvation Army Chaplain, and after being treated to light refreshments at the Y.M.C.A. tent, were shown over the camp. Major Ross, D.A.A.G., Q.M. Many Prisoners Taken in Frontal Attack

God has been wonderfully blessing the efforts of the Officers and Soldiers at Coleman lately, and within twenty-five surrenders, twenty-t being young people and three being adults. This is indeed to both Offeers and Soldiers an inspiring victory, making us more determine than ever to go on with the battle, come what may.-T. H. M.

INTERESTING FACT— TEN SOULS

To the stranger the first view of Saskatoon is little short of amazing, but pleasureable, surprise. He na-turally has in mind a "Boom City." turally has in mind a "Boom City," of mushroom grouth, with rapidly faid-out streets and temporarily erected banks, stores and public buildings. What it his delight, therefore, when he beholds a thoroughly modern, up-to-date city in every respect — wide, splendfuly pared sirects, tall, substantial-lookng buildings, electric street railway system, etc., etc. Is it any wonder that, driving afong in Mr. Tuffling's beautiful "McLaughlin" on the fleights to the south of the broad, rolling Suskatelanan we simply gara ourselves over to evelomation expressions of wonder and de-

ignt.

But quite in keeping with the solidity and "up-to-dateness" of the city is the splendid Salvation Army work that is being earried on under the leadership of Adjutant and Mrs. the leadership of Adjutant and Mrs. Johnstone — a fine, well-equipped Band, capable Locals, smartly uniformed Soldiers, and, amongst them, a most encouraging proportion of young people,

This being the Territorial Scere-tary's first visit to Saskatoon in his new canacity, all were looking forgard to a special time of interest and blessing,

The Holiness Meeting on Sunday morning was a time of inspiration and spiritual help, the Colonel urging all present to more patiently and persistently run the great race that was set before them.

In'ine afternoon a good audience listencel to the Culonel's address on "Nation Building," in which he showed that true national greatness depended upon fidelity and loyalty, tian principles. The Colonel traced the history of the present European War through from its beginning, drawing lessons therefrom, and graphically describing the part played in the war by The Salvation Army, The ebair was ably filled by Mr. George E. McCraney, M.P., who, in bis opening remarks, said, "No mat-ter what our polities or faith, we must all hear witness to the wonder-ful work of The Salvation Army." Mr. McCraner, in course of conver-sation later, mentioned the interesting fact that the present site of the Albert Streets, in Toronto, was solugrandfather, who, for some years previously, had lived in a cottage on the same snot.

At night two Open-air Meetings At uight two Open-air Meetings were held, the Baul, with the Territorial Secretary in command, and the Soldiers, under the leadership of Adjutant and Mrs. Johnstone and Ensign Pagnire. The march to the Hall was an inspiring sight. The meeting inside, led by the Colonel, resolved itself into a typical old-pine Battle for Souls — the Band, Locals and Soldiers assisting nobly. The efforts of the week-end were erowned with success, when ten soufs, adults and Juniors, knelt at the Mercy Seat.

Adjutant and Mrs. Johnstoworked like trojans to week-end a success.

The work being done in Petrograd started originally in Helsingfors. The inclusion in a Petrograd exhibition, by instruction of International Headquarters, of a stall for The Salvation Arnay, was in itself a step in the right direction, and since that time there have been other steps which have been indicative of progress. We suggest that the time has some when Comrades who desire to come when Comrades who, desire to dedicate their lives for the service of Christ within the Czar's dominons, should at once begin to learn the Russian language, familiarize them-selves with its peoples and man-ners and eustoms and beliefs, study their literature, and, so far as, possible, get into their very hearts, and then with all their knowledge at dis-posal, and with their hearts full of enthusiasm for the work they would do, offer themselves for Officership. It may be that this short article in itself will act as a spur to some to do as we suggest and lead them to dedicate their lives to the service of Christ in the far-stretching domin-ion of the Russian Empire.—All the

Both girls were o make ends meet. Both girls were glad to be working again, however, after the period of stress and anxiety they had passed through.

From their first week's wages they managed to pay the rent of their room and squeeze out a dollar each towards paying off their big debt to the clothing store. The agent grumbled a good deal at the smallgrumpled a good deal at the strain-ness of the amount, and said he would expect more next time. The girls found, however, that they were utterly unable to continue the pay-ment of even a dollar regularly. The cold winter days were now coming on, and they felt their need of more substantial fare than bread and weak tea. They often bad to take the car to and from work also, on ac-count of bad weather, and this helped to cut into their very slender

The result was that they got further behind than ever in their pay-ments to the clothing company and one day each of them received a letter in which it was pointed out to ter in which it was pointed out to them that the longer they took to pay off their indebtedness the more they would have to pay, as the in-terest on the amount practically loaned them kept growing.

A hint was also thrown out that if they did not soon make a further payment there would be trouble of some sort, though just what would happen was not clearly stated. It was sufficient, however, to thor-oughly alarm the girls, and they imagined that they were already un-der the shadow of a prison cell.

"Whatever shall we do?" said Elsie. "We must hold these people off somehow, I could pawn my bracelet and my watch, I suppose; but I hate to part with them, be-

"Why not pawn half of our clothes to pay for the other half," said Rosie; "or, better still, perhaps the firm we bought them off will take
